ITEM 110**GOVERNING PUBLICATION**

Except as otherwise provided herein, the following publications will govern the application of this Tariff.

1. National Motor Freight Classification (NMF 100 Series)
2. Hazardous Materials Tariff ATA-111 Series.
3. Rand McNally Mile Maker Version 19

ITEM 115**APPLICATION OF CLASSES**

To ensure the correct assessment of freight charges, shipper must use proper commodity descriptions on the bills of lading and shipping orders. Such descriptions must conform to those shown in the National Motor Freight Classification (STB NMF 100 Series). Appropriate abbreviated descriptions are permitted provided the NMFC item and appropriate Sub number thereof are shown. Incomplete or improper commodity descriptions accompanied by a class rating are not acceptable forms of abbreviation and shall not determine the proper classification rating applicable to such commodity. Packaging types are required for classification rating and must also be shown.

If Carrier receives a bill of lading, shipping order, manifest or receipt for goods where an incomplete or improper commodity description is used or where the NMFC item number is not valid or has expired, Carrier will make every effort to classify the freight according to the information shown. In the event Carrier, in its judgment, cannot determine the proper classification rating, such commodity will be assigned a class **(C)**150 rating, and rates will be assessed on that basis.

For commodities that are subject to class ratings that are dependent on the actual density or density group, shipper must show on bills of lading and shipping orders at time of shipment the actual density or density group. If the actual density or density group is not shown and shipment is inadvertently accepted, charges will initially be assessed on the basis of the density subject to class **(C)**150. If there is no density subject to class **(C)**150, the next highest class applicable, regardless of density, will apply. Upon submission of satisfactory proof of the actual density, freight charges will be adjusted to the basis of the class applicable to such density.

ITEM 120**PRECEDENCE OF PRICING PROGRAMS**

1. When on shipments for which specific pricing is applicable for the shipper, consignee and/or third party (See NOTE B), the applicable pricing published specifically for the account of the payor of the freight charges will apply.
2. When on prepaid and collect third party shipments (See NOTE B), if there is no specific pricing published for the account of the third party, the pricing published specifically for the account of the shipper or consignee, based on the terms of the bill of lading, will apply if applicable.

NOTE A – As used in this item, “Pricing,” “Pricing Program” or “Specific Pricing” means any rates (other than full class rates) or charges, discounts, allowance or other means of determining final charges, published to apply for a specific account or accounts.

NOTE B – If the third-party payor is a Logistics Company, Consultant or similar type entity that is paying freight charges for another party, the pricing published specifically for the Logistics Company, Consultant or other entity, or for the party they represent will apply.

ITEM 130**ALLOWANCES & OFF-BILL DISCOUNTS**

The following provisions will control the application of allowances, incentives and other off-bill provisions in pricing publications governed by this Tariff unless more specific provisions are published in such pricing applications.

1. Allowances, Incentives and Off-Bill Provisions will not apply on:
 - Accessorial Charges
 - Fuel Surcharges

- Minimum Charges
- Non-Direct Traffic
- Shipments subject to Volume, Truckload, Per Mile, Flat Charge or Rate Per Pallet, Spot Rate or Per Vehicle Rates
- Shipments subject to a minimum charge for cubic capacity, volume or capacity load or exclusive use of vehicle
- Shipments rated at the M20M or higher scale of rates
- Hourly Rates

2. a) Except as otherwise provided, an allowance or off-bill provision will only apply when consignor/consignee has agreed to allow the Carrier to generate an automatic end of the month claim. When requested by consignor/consignee, Carrier will generate an automatic end of the month claim which will show the necessary information regarding all qualifying shipments that moved in a specific month with a total allowance amount to be paid. Such automatic claims generated by the Carrier will be paid on or before the last day of the month following the month in which the service was performed.

b) When specifically requested by the party performing the service the allowance, incentive or off-bill provision will be paid only upon presentation of a written statement to the Carrier of the amount claimed at the points at which the allowance is applicable. Such statement must contain sufficient information to verify the application of this item. Customer filed claims must be itemized to indicate the date of shipments, Carrier's freight bill number or by including with the claim, copies of the shipping order(s) or bill(s) of lading including the Carrier's freight bill number and the weight of each shipment. Claims will only be paid when the claim for such allowance(s) is filed with the Carrier on, or before, the last day of the month following the month in which the service was performed. Such claims will be paid within 30 days from receipt of the claim.

Allowances, incentives or other off-bill provisions expressed as percentages will be computed on the net linehaul revenue after otherwise applicable discount(s) have been deducted and will not apply on accessorial charges. In no case, will the net revenue, after the allowance or incentive is paid, be less than the published minimum charge for the customer.

4. Amounts to be paid will only apply when the freight charges are billed to and paid by the account receiving the refund. Payments will only be made after Carrier receives full payment for freight charges. (See NOTE A)

5. Unless consignee or consignor tenders sufficient business to generate a minimum of a \$20.00 monthly payment, Carrier will make no payment. If after one year, no payments have been made, then the allowance shall be deemed to be cancelled.

NOTE A: Any discrepancies in payment must be presented to the Carrier in writing within 180 days of the date of shipment. Any freight bill over this time limit will not be eligible for allowances.

ITEM 135

DEFICIT WEIGHT OR YARD PROVISIONS

Except as otherwise provided, in no case shall the charge for any shipment from and to the same points via the same route of movement, be greater than the charge for a greater quantity of the same commodity, subject to the same packing provisions, at the rate and weight applicable to such greater quantity of freight, except in the case of flat rate charges.

ITEM 140

BILLS OF LADING

Unless otherwise agreed to in writing, Contract Terms and Conditions shall be those as indicated in the NMFC-100 Item 365 "Uniform Straight Bill of Lading" in effect on the date the shipment was tendered to the Carrier. ONLY Carrier personnel with title of CEO, VP, or Pricing Director are authorized to agree to alter contract terms and conditions and the use of an alternate Bill of Lading referencing such terms and conditions. No other person is authorized to alter contractual terms and conditions nor is any other person authorized to use an alternative Bill of Lading. Where a Bill of Lading other than the Uniform Straight Bill of Lading is signed for by the Carrier's driver or other persons, that signature ONLY acknowledges receipt of the freight and identifies the entity to deliver. It is not a contract for the carriage of freight. Continued use of an unauthorized Bill of Lading by the shipper will NOT constitute an implied acceptance by the Carrier.

ITEM 150**CORRECTED BILLS OF LADING**

Corrected bill of lading changing the payment terms from prepaid to collect will not be accepted after the shipment has been delivered. A corrected Bill of Lading to change the original transportation contract from PREPAID to COLLECT will not be accepted if Section 7 (non-recourse clause) of the corrected Bill of Lading has been signed by the consignor. If the corrected bill of lading is inadvertently accepted and Section 7 has been signed, the signature will be considered invalid. The party requesting a change in collection status will guarantee payment of freight charges should the new debtor fail to pay within the prescribed credit guidelines. Corrected bills of lading changing the description, density, or weight of commodities in a shipment will not be accepted by XGS without submission of conclusive documentation to the satisfaction of XGS or where changing the bill of lading request would violate laws, rules, or regulations. Any requested change to a bill of lading, or creation of a bill of lading will be assessed a \$25.00 fee.

ITEM 155**PACKAGING REQUIREMENTS**

Where packing requirements are not provided in Tariffs governed hereby, the packing requirements of NMFC will apply. Where packing requirements are provided in Tariffs governed hereby, rates or ratings provided in connection therewith will apply only when the article or articles are packed in accordance with such packing requirements, except that rates or ratings subject to such packing requirements will apply also when the article or articles, so packed as required, are placed on pallets.

Note A: Acceptance of shipment by Carrier does not invalidate packaging requirements defined above Note B: All packaging is subject to rating and aggregates to the total weight of the shipment

ITEM 160**IMPRACTICAL OPERATIONS**

Pickup or delivery service will not be performed by the Carrier at any site from or to which it is impracticable to operate vehicles because of:

1. The conditions of roads, streets, driveways, alleys or approaches thereto.
 2. Inadequate loading or unloading facilities.
 3. Riots, acts of God, the authority of law, the existence of violence, or such possible disturbances as tending to create reasonable apprehension of danger to persons or property.
 4. Ferries.
-

ITEM 170**OTHER EQUIPMENT**

When a shipment is tendered for transportation on any trailer, semi-trailer, or other non-power vehicle owned by any person, company or corporation other than the Carrier transporting the shipment, the following rules shall apply hereto:

1. The shipment will be transported subject to all rules, regulations, rates and charges applicable to a shipment transported on the Carriers own vehicle.
 2. Carrier will accept and use, in lieu of its own vehicle, a vehicle required or adopted to the transportation of a shipment, and will return the vehicle to the place of origin of the trailer in condition as received, usual wear and tear excepted.
 3. Shipper shall equip and provide such vehicle in compliance with all regulations, including license plates, identification cards, and other authorization necessary to the operation of such vehicles over the routes to be traversed with the shipment. Any additional tax or other charge on such vehicle by a public authority shall be advanced by the Carrier and shall be added to all other charges accruing on the shipment.
 4. Except for negligence of Carrier or Carrier personnel, Carrier does not accept any responsibility of any damage from collision, fire, theft, or any other repair, replacement, or mechanical changes. At owner's request, Carrier will make such repair or changes, and all the charges therefor shall be added to all other charges accruing to the shipment.
-

ITEM 175**INTERLINE OR AGENTS**

XGS reserves the right to allow partner carriers to pick up, move, or deliver shipments as an act of convenience. As our agent, all rates as agreed to by the shipper or consignee and XGS will be used to assess rates and charges. In the event that a carrier other than an agent for XGS originates a shipment and then hands off to XGS for final delivery, XGS will only bill the customer for the portion of the move handled by XGS. XGS also reserves the right to utilize the MAP-21 compliant services of its brokerage authority and/or truckload brokerage division Xpress Transportation Management System (XTMS) to retain other licensed, authorized and insured carriers and notice of such substitution will be provided to customer at or prior to dispatch. All service conditions contained herein shall apply and XGS and/or its truckload brokerage division XTMS will retain and compensate the carrier it retains.

ITEM 180**DIVERSION / COMBINATION OF RATES**

When instructions are received to divert a shipment at any point from Carrier to broker, freight forwarder, or other Carrier and when such instructions do not include a change in the destination of the shipment, the following provisions apply:

1. The shipment will be charged for on the basis of the combination of rates or charges applicable from the origin point to the diversion point and the brokerage charges from the diversion point to the destination point.
2. A charge of \$31.50 per hour, per man, subject to a minimum charge of \$55.00 will be made for all time and men required in unloading and reloading the line-haul vehicle to accomplish such diversion.

ITEM 190**LOADING BY CONSIGNOR / UNLOADING BY CONSIGNEE**

Rates subject to provisions that consignor is to load and/or consignee is to unload the shipment are subject to the following additional provisions:

1. At time of shipment a notation must be made on the Bill of Lading and Shipping Order that consignor is to load and/or consignee is to unload the shipment. (See NOTE A)
2. The complete loading and/or unloading service of the freight including the count thereof, must be performed by the shipper and/or consignee at their expense without any assistance from the Carrier. The Carrier's employee and power unit are to be released while loading and/or unloading is performed. At Carrier's option, the Carrier's employee and power unit may remain during loading or unloading but will render no assistance in loading or unloading.
3. (a) The complete loading service includes the counting and loading of the freight into or on the Carrier's vehicle and the stowing and arranging thereof. Any temporary blocking, flooring or lining, racks, standards, strips, stakes or similar bracing, dunnage or supports, not constituting a shipping Carrier, container or package, or a part of the vehicle when required to protect and make shipments secure for transportation must be furnished and installed by the shipper.
(b) The complete unloading service means that the consignee must remove the freight from the position in which it is transported in or on the Carrier's vehicle.
4. On mixed shipments when any portion of the freight is required to be loaded or unloaded by shipper and/or consignee, as a condition precedent to the application of the rate, the entire shipment must be loaded and/or unloaded and counted by the shipper or consignee, otherwise the rate will not apply and rates otherwise published will be assessed.
5. In the event the shipment is stopped-off for partial loading or partial unloading, the party or parties tendering or receiving any portion of the shipment will be subject to the requirements as to loading or unloading.
6. If the consignor or any party tendering any portion of the shipment refuses to perform the loading or the consignee or any party receiving any portion of the shipment refuses to perform the unloading, the rate will not apply and rates otherwise published will be assessed.

NOTE A--The requirements that notation must be placed on Bill of Lading and Shipping Order at time of shipment will not apply when entire shipment consists of freight in a single container, or freight secured to pallets, platforms or lift truck skids, or freight in any other authorized form of shipment, each unit weighing 500 lbs., or more as tendered for shipment (loading required by consignor and unloading required by consignee, per NMFC Item 568).

ITEM 195**MILEAGES & ROUTES**

1. Unless otherwise provided, where rates are based on mileage, mileage will be the distance between the point of origin and point of destination by the shortest regularly traveled available highway routes and shall be ascertained by the compilation of distance in Rand McNally Mile Maker, version 19.
 2. Except as otherwise provided, the rates published in this Tariff are applicable only over regular United States Inter-State and State Paved Roads and/or Improved Roads, via Carrier or Carriers handling shipment as authorized the Carrier or Carriers to travel or pass over in the authority shown in their certificate or compliance order issued them by the Interstate Commerce Commission.
 3. When, for any reason, a Carrier or Carriers transports shipments over an alternate route which is in excess of the shortest route, the rates to apply will be those which would have applied if the shipment had been transported over the shortest route. Rules or other provisions of this Tariff providing rates and services from, to or at intermediate points will not apply at points on such alternate routes.
 4. When, at the request of the shipper, a longer route than the shortest available regularly traveled highway route is used, the actual mileage over the longer route will apply.
 5. Where the rates are not shown for the actual distance, the rates given for the next greater distance will apply.
 6. When on shipments subject to stop offs for partial loading or unloading, mileage will be determined from origin to destination through the stop off point or points.
-

ITEM 200**INSIDE DELIVERY OR PICK-UP**

At the request of the consignor or consignee, XGS may move shipments or portions of shipments from or to positions beyond the immediately adjacent loading or unloading positions. Carrier will provide service to floors not adjacent to the loading or unloading position when elevators or escalators are available. Inside Pickup or Delivery includes up to 30 minutes of labor. Time required beyond 30 minutes will be charged as detention (Item 570) without consideration of additional free time.

Charges for this service shall be \$95.00 per shipment.

NOTE A: Carrier may not offer Inside delivery or pickup for rolled goods, depending on equipment available. NOTE B: Refer to Item 670 for "Extra Labor".

NOTE C: For the purposes of this item, rugs may be considered rolled goods if shipped on a core or exceeding 100 lbs. NOTE D: Charges will not apply when White Glove Service is requested.

ITEM 201**WHITE GLOVE SERVICE**

White Glove services will be preapproved and prearranged services with agreed upon rates and charges per service.

ITEM 205**ADVANCING OR PAYING CHARGES**

1. Unless otherwise instructed by shipper or consignee, Carriers may advance or pay charges for truck entry fees, mill charges, access fees, lumpers, or for accrued lawful charges of air or water Carriers (See NOTE A). Such advancements or payments together with the charges accruing under this item shall be assessed against the party against whom the freight charges on the shipment involved are assessed. Billing under this item may be made either at the time of billing of the freight charges if the advancements or payments are then known; or by subsequent billing as necessary.
2. The charges of the Carrier for advancing or paying monies above described will be subject to an administrative surcharge of 10% of the total amount advanced.
3. Provisions of this item do not include the advancing of broker's fees or in bond shipments moving from a place in a foreign country to another place in a foreign country and transported through the United States.

NOTE A--Charges specified in this rule must be entered on billing in such manner as to accurately describe their exact character.

ITEM 230**BLIND SHIPMENTS**

A blind shipment is when a third party controls the movement of the freight but does not want the shipper or consignee to know the name of the other. The following conditions will apply to blind shipments:

1. Only requests prior to pick up will be considered for this service. If the request is not made prior to pick up, the request will be handled as a reconsignment subject to the provisions of Item 820 herein.
 2. Carrier must receive shipping instructions from the Third Party and be satisfied that the Third Party has the legal authority to control the shipment.
 3. Two bills of lading are required.
 4. The original bill of lading from the shipper must show the actual shipper name, address, city, state and zip code and be consigned to the third party in care of Carrier's terminal serving the consignee.
 5. The corrected bill of lading will identify the Third Party as the shipper with the shipper's city, state and zip code and the actual consignee name and address.
 6. Charges for this service and applicable line-haul charges must be paid by the party requesting the service.
 7. The party requesting the service must have established credit.
 8. Section 7 of the Bill of Lading cannot be signed.
 9. The invoice will be generated from the corrected bill of lading.
 10. A charge of \$60.00 will apply in conjunction with all other applicable charges.
 11. Charges as found in Item 580 (Marking or Tagging Freight) will not apply on shipments subject to this item.
 12. Carrier will make a diligent effort to execute a request for Blind Shipment service. However, Carrier cannot ensure the confidentiality of the transaction or that such service will be provided.
-

ITEM 240**REQUESTS FOR DOCUMENTS**

(Exception of NMFC Item 360. See Notes B and C)

When payor of freight or other lawful charges requires or requests, as a prerequisite to payment:

1. The return of any part of Bill of Lading sets or copies thereof, other than one shipper furnished copy (See NOTE A), a charge of \$ 2.00 for each such document or copy will be made; OR
2. Copies of Freight Bills or statements of transportation charges in excess of the number specified in Sec. 1(e) of NMFC Item 360 a charge of \$ 2.00 for each such document or copy will be made; OR
3. DETENTION—VEHICLES WITH POWER

This item applies when Carrier's vehicles with power units are delayed or detained either on the premises of consignor or consignee or as close thereto as conditions will permit, subject to the following provisions:

SECTION 1 – GENERAL PROVISIONS:

1. The detention charges due the Carrier will be assessed against the consignor in the case of loading and against the consignee in the case of unloading, irrespective of whether line-haul charges are prepaid or collect. When detention charges are attributable to others who are not parties to the Bill of Lading, the party responsible for the payment of the freight charges will be held responsible for any accrued detention charges.

2. When Carrier's employee assists in loading, unloading or checking the freight, this item will apply whether or not the power unit is actually detained.

3. Nothing in this item shall require a Carrier to pick-up or deliver freight at hours other than such Carrier's normal business hours.

4. When vehicle is both unloaded and reloaded, each transaction will be treated independently of the other, except that when loading is begun before unloading is completed, free time for loading shall not begin until free time for unloading has expired.

5. Freight remaining undelivered after the accrual of any detention charges may be placed in storage. Such freight shall be subject to accrued detention charges up to the time freight is placed in storage and shall immediately become subject to storage charges in Item 490. If the freight is later tendered for delivery, the charge for redelivery in Item 250 will apply. In such event, detention charges as provided in Section 5 of this item will immediately become applicable.

6. When through no fault of the Carrier, the loading or unloading of a vehicle with power cannot be completed at the end of a normal business day:

(a) Consignor or consignee may request that the vehicle without power remain at its premises and the provisions of Section 4, Paragraph 2 will apply.

(b) Consignor or consignee may request that the vehicle with power be returned to Carrier's premises. At the time,

computation of any remaining free time will cease. That portion of the shipment in the Carrier's possession is subject to storage as provided in Item 490. When the vehicle is returned to consignor's or consignee's premises, computation of any remaining free time will resume. The portion of a shipment that is redelivered is subject to redelivery charges provided in Item 250 series.

SECTION 2 - DEFINITIONS:

"LOADING" - includes the furnishing to the Carrier the Bill of Lading or Forwarding Directions or other Documents necessary for forwarding of the shipment.

"UNLOADING" - includes:

- (a) Surrender to the Carrier of Bill of Lading on shipments billed "To Order".
- (b) Payment of lawful charges to the Carrier when required prior to delivery of the shipment.
- (c) Notification to the Carrier that vehicle is unloaded.
- (d) Signing delivery receipt when delivering Carrier's agent is present at unloading.

SECTION 3 - COMPUTATION OF TIME:

1. Commencement and termination:

(a) The time per vehicle shall begin to run upon actual notification by Carrier's employee to a responsible representative of consignor, consignee, or other designated party at the premises of pickup or delivery of the arrival of the vehicle for loading or unloading. Upon such notification, the responsible representative of consignor, consignee, or other designated party may enter the time of arrival onto the Carrier's detention record. If the representative refuses to enter the time, then Carrier's employee will enter the time and it will be binding upon each party.

(b) Time shall end upon completion of loading or unloading. Upon such completion, a responsible representative of consignor, consignee, or other designated party may enter the time of completion on to the Carrier's detention record. If the representative refuses to enter the time, then Carrier's employee will enter the time and it will be binding.

2. Computations of time are subject to and are to be made within the normal business day at the designated premises at place of pickup or delivery, except:

(a) When loading or unloading is not completed at the end of such day, time will be resumed upon notification by driver to the responsible representative of the consignor or consignee that he is ready to resume loading or unloading.

3. When Carrier is permitted to work before or after the normal business day, such working time shall also be included.

4. Free time will be computed on the total number of shipments and their combined weight on the vehicle, regardless of origin or destination. Where any shipment on the vehicle is subject to a similar rule providing greater total free time for the vehicle than here provided, such greater free time will apply. When free time is exceeded, detention charges on the vehicle will be determined by the application of the lowest detention charges governing any shipment on the vehicle.

5. Where there is more than one payor, charges will be prorated on the basis of the weight of each individual shipment. Where single or multiple LTL or AQ shipments subject to LTL or AQ rates exceed the carrying capacity of one vehicle free time for each vehicle shall be computed separately.

SECTION 4 - FREE TIME:

1. Free time shall be as follows:

ACTUAL WEIGHT IN POUNDS PER VEHICLE STOP FREE TIME IN MINUTES PER VEHICLE STOP

Less than 2,500	15
2,500 but less than 5,000	30
5,000 but less than 7,500	45
7,500 but less than 10,000.	60
10,000 but less than 20,000.	90
20,000 but less than 28,000.	105
28,000 or more	120

2. Once a vehicle with power is placed for loading or unloading and then changed to a vehicle without power at the request of consignor or consignee, the free time and detention charges will be applied as follows:

(a) If the change is requested and made within free time allowed for a vehicle with power, free time will cease immediately at the time request is made and detention charges for vehicle without power will be applied immediately with no further free time allowed.

(b) If the change is requested and made after expiration of free time for a vehicle with power, free time and detention charges will be computed on the basis of a vehicle with power up to the time the change was requested. In addition, thereto, vehicle will immediately be placed on detention for vehicle with no further free time allowed.

SECTION 5 - CHARGES:

1. When the loading or unloading is delayed the charge per vehicle for each 15 minutes, or fraction therefore, beyond free time will be \$30.00.

2. The detention charges due the Carrier will be assessed against the consignor in the case of loading and against the consignee in the case of unloading, irrespective of whether line-haul charges are prepaid or collect. When detention charges are attributable to others who are not parties to the Bill of Lading, the party responsible for the payment of the freight charges will be held responsible for any accrued detention charges.

ITEM 571**DETENTION WITHOUT POWER (Note A)**

Consignor, consignee or other designated party may shift the spotted trailer with its own power units at its own expense and risk for the purpose of loading or unloading. Empty trailers placed at the premises of consignor without specific request are not spotted until the Carrier receives a consignor's request that places a trailer for spotting. (2) When a stopped trailer is changed to a vehicle with power at the request of consignor, consignee, or other party designated by them, the free time and detention charges will be applied as follows:

(a) If the change is requested and made before the expiration of free time for a spotted trailer, free time will cease immediately at the time the request is made, and detention charges for vehicles with power will immediately commence with no further free time allowed.

ITEM 600

MINIMUM CHARGE FOR LOW DENSITY FREIGHT

Low density freight includes any shipment which is 750 cubic feet or greater and has a density of less than six (6) pounds per cubic foot. Eligible shipments will be subject to rates and charges and a minimum charge to be determined as follows:

1. Multiply the total cubic feet by 6 pounds to get the calculated weight of the shipment.
2. Multiply the calculated weight by the class 100 class rate as published in the current XGS series Tariff in effect at time of shipment.
3. Apply the customers published discount percentage.

Density is based on the total cubic feet of all articles or pieces in the shipment. Density is determined as referenced in Item 400 and as follows:

A. To determine the density of a cylindrical shaped article or any article other than a square, elliptical or rectangular shaped article in a single plane, square the greatest dimension on the cylindrical or other than square, elliptical or rectangular plane (multiply the dimension by itself) and multiply that result by height or length. If result is in cubic inches,

B. divide by 1,728 cubic inches (one cubic foot). The density shall be the result of the division of the weight of the article by the ascertained cubic feet.

C. Freight bill information: When this item has application, the Carrier's freight bill will indicate both the actual weight and the calculated weight upon which the charges are assessed.

D. The provisions of this item are not applicable in connection with shipments subject to:

- 1) Capacity load or exclusive use of vehicle provisions, or;
- 2) TL or Volume rates or charges, or;
- 3) Rates stated to apply per unit, per mile or per trailer, or;
- 4) Rates that are based on the number of linear feet, or other units, occupied by the shipment; and the minimum charge provided in this item may not exceed charges as provided in a), b), c) or d).
- 5) Shipments subject to full Class rates with no discount.

E. If Carrier is unable to load freight on top of the packaged articles/handling units due to the nature of the packaged articles/handling units, per instructions from the shipper/consignee, loading or bracing with partitions, or by any other means, minimum height measurement of 102 inches and width measurement of 96 inches will be used when determining the cubic footage of the packaged articles/handling units.

ITEM 610**BILLS OF LADING - COMBINED SHIPMENTS**

When XGSI receives two (2) or more shipments from the same shipper, on the same date, at the same place, consigned to the same consignee at a single place, XGS, at its option, may combine the bills of lading for all such shipments into a master bill of lading and handle all such shipments as a single shipment. Such consolidated shipments shall be subject to all rules, regulations, and charges that would apply if they had all been tendered to the Carrier as a single shipment. If the combination of shipments results in a combined weight in excess of 20,000 lbs., Carrier may transfer this truckload shipment to its brokerage division (XTMS) for handling, reference Item 440.

If the combination of shipments handled by XGSI results in Capacity Load (Item 340) or Linear Feet (Item 760) conditions, such charges from these items will be applicable.

ITEM**660****DENSE SQUARE YARD UPCHARGE**

All shipments rated as rate per SY moving as a roll on a core that exceed the below pounds per square yard shall have an additional upcharge to the line-haul rate as follows:

Pounds Per Square Yard	Dense Carpet Charge
7.0 to 7.49	160% of the rate
7.5 to 7.99	170% of the rate
8.0 & Over	180% of the rate

ITEM 670**EXTRA LABOR**

When requested by a customer, extra labor may be furnished by XGS for loading and unloading for a charge of \$80.00 per man hour. This service includes charges only for utilization of manpower and charges for services including use of equipment would be assessed separately. Time shall be computed from the time the extra labor is dispatched to the place of pickup or delivery until loading or unloading is complete. The terms of this item do not constitute an obligation on behalf of XGS to furnish extra labor.

ITEM 690**RUGS IN DISPLAY BOXES**

All rugs shipped in Display Boxes as sold in the store where the shipping container can be considered as a store display, will be rated as a Display per NMFC Item # 57410 based on density guidelines and class per the National Motor Freight Classification guide.

ITEM 700**CRATED CARPET**

Broadloom carpet when rated by the square yard per the customer's pricing agreement shipped in crates or bundles (with rolls unable to be handled with a carpet pole) will be assessed an additional charge of \$80.00 per crate.

ITEM 720**FREIGHT QUOTES – VOLUME & LTL**

Valid quotes must be obtained with a valid XGS assigned quote number obtained in advance by the payor of the freight. All quotes are valid for 15 days from the time the shipment is quoted. All shipments moving under a XGS quote number must have the XGS quote number on the bill of lading at time of shipment. Volume quotes will be the responsibility of the shipper to load the freight in the space allotted in the quotation. Should any shipment characteristics provided at the time of the quote be unmentioned or varied including but not limited to zips, weight, class, space, value, or accessorials services, the quote is invalid and the shipment will be rated per the current customer Tariff rates & rules. Please note, Volume shipments, while quoted or not, will move as available within the XGS network and will not be subject to service standards as other LTL shipments.

ITEM 730**CANCELED PICKUP & TRUCK ORDERED NOT USED**

Any LTL pickup requested by XGS that is attempted, but canceled without the tender of freight to XGS, will be assessed a canceled pickup charge of \$50.00 per shipment.

Any truckload or volume quoted shipment pickup request by XGS that is attempted but cancelled without the tender of the freight to XGS, will be assessed a Truck Ordered Not Used (TONU) fee of \$400.00.

ITEM 735**CROSS DOCK FEES**

Shipments that are handled at a XGS facility that are transferred to another Carrier or returned to shipper after reaching the XGS origin facility at the request of the customer are subject to the handling fees associated with the transfer of said shipment. Charges do not apply to through traffic handled by XGS.
